**OBEDIENCE**

### SUNDAY 22

10:00am - 12:00pm  
**POOL PARTY**

2:00pm to 5:00pm  
**POOL PARTY**

#### ACTIVITIES

##### DOG AGILITY

Activities for an approach to dog agility using various elements (jumps, slalom, tunnels, ramps, see-saw).

##### OBEDIENCE

Obedience is a dog sports discipline in which the dog must perform a series of exercises of increasing difficulty together with its owner; it can be practised by dogs of any breed, including mixed breeds.

##### NOSEWORK

Playful scentwork, or nosework, is not intended to develop the dog's sense of smell, but to teach him that if he uses his nose he can find hidden objects, animal tracks and people, and obtain gratifying

rewards. Dogs derive great pleasure from playful scentwork search games that provide them with mental and physical stimulation.

##### DOG BALANCE FIT

The discipline of Dog Balance Fit is a proprioceptive exercise for the all-round well-being of your dog, who is trained both posturally and emotionally.

##### MENTAL STIMULATION

Games and problem-solving activities to stimulate and enhance your dog's cognitive skills.

##### DOG SUP

Dog sup is a new activity that is slowly catching on: a water dog sport that we can share with our four-legged friend. The acronym Sup (Stand Up Paddle) refers to a board for paddling standing up or kneeling down for the inexperienced, and it is possible for you to share the board with your dog and ride on the water. A dog pool will be set up in the village to introduce dogs and their owners to the sport.
